LEAD CAPTURE · HANDOVER FOR KOOK

Two buttons, one Career Advisor for every lead

"Book a Careers Consult" and "Download an Information Pack" each open their own HubSpot form. After either one, the visitor sees their Career Advisor instantly, with options to book a time or call.

- 2 HubSpot forms
- 283 buttons on 46 pages
- 2,664 postcodes · 10 advisors
- Spec: SPEC.md

THE CHANGE

Two buttons replace the old CTAs sitewide

Each opens its own HubSpot form. What happens after submit is the same for both, apart from the wording.

PRIMARY

Book a Careers Consult

Replaces "Chat with a Career Advisor"
Header button, page CTAs, footer links, funding checker results

Opens the Careers Consult form
HubSpot form 2e5b35fb-…

Then: "Tess will call you within 1 business day"
Or lock in a time now / call Tess now

SECONDARY

Download an Information Pack

Replaces "Request an Info Pack"
Course and campus pages, homepage

Opens the Information Pack form
HubSpot form cd7c4efe-…

Then: "Your information pack is on its way"
Plus Tess's details, book a time or call

HOW IT WORKS

From button to Career Advisor in two screens

HubSpot takes about 6 minutes to assign an owner, so the advisor lookup lives in the website: screen 2 names the advisor the instant the form is submitted.

1

Visitor taps a button

Book a Careers Consult, or Download an Information Pack, on any page. The page they came from sets the course.

VISITOR

→

2

Screen 1: HubSpot form

The form for that button. The website preselects the course and fills the hidden UTM and source fields.

HUBSPOT FORM

→

3

Match the advisor

On submit, the website applies the routing rules to the submitted course, citizen/PR answer and postcode.

WEBSITE

→

4

Screen 2: what's next

Advisor's name, phone and email, "within 1 business day", plus Book a time now and Call now.

WEBSITE

→

5

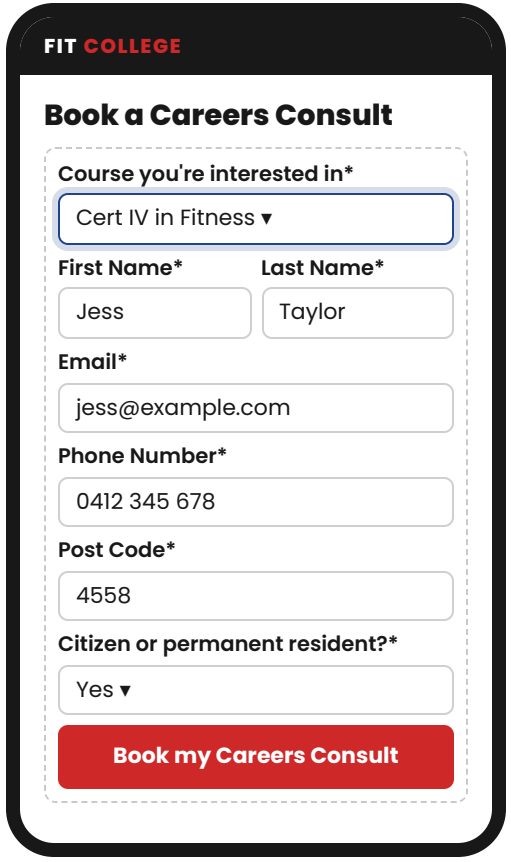

Into HubSpot

The lead is in HubSpot. From here FIT College handles everything in-house.

HUBSPOT

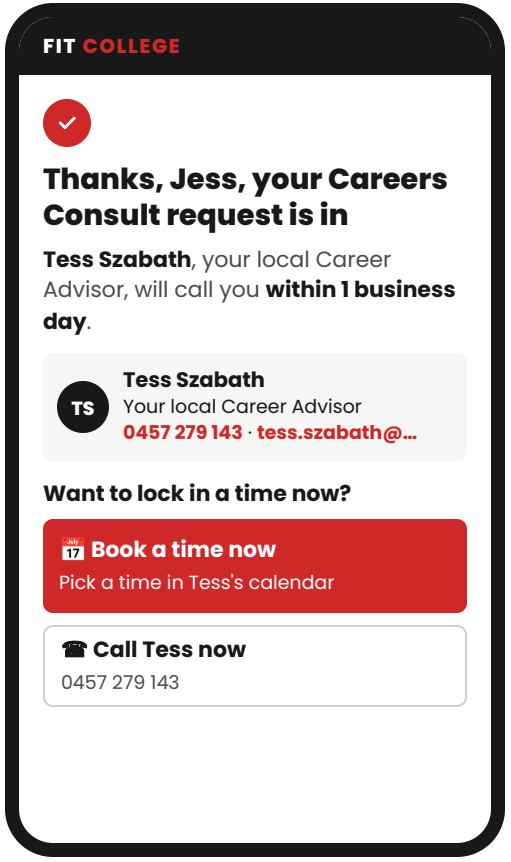

WHAT THE VISITOR SEES

Two forms, one "what's next" panel

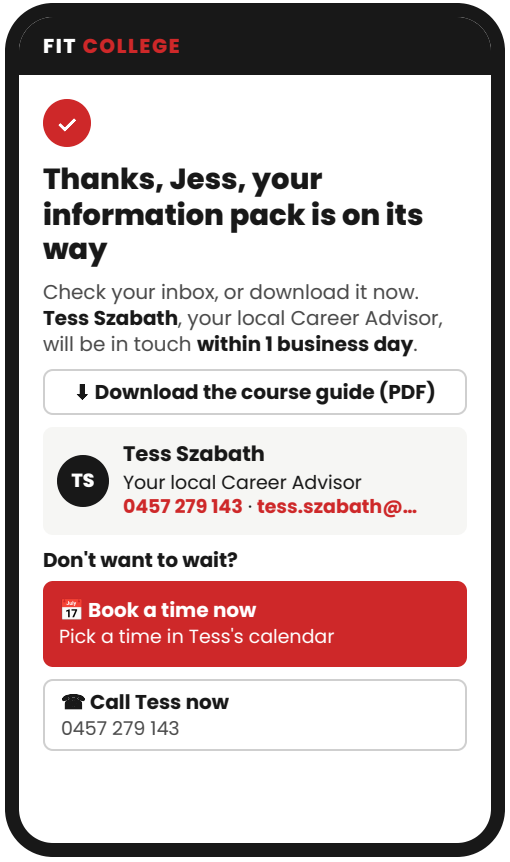

Screen 1 · HubSpot form

Course preselected from the page they came from

Screen 2 · Careers Consult

Instant, from the website's lookup table

Screen 2 · Information Pack

Same panel, plus the 2026 Course Guide download

THE ROUTING RULES

Checked in this order, first match wins

Runs in the browser on the submitted values, using the lookup table in `data/advisor-lookup.json`.

1	Course is a **non-fitness course** (next slide), or not listed	→ **Shay Best**
2	Answered **No** to "Australian citizen or permanent resident?" (postcode may be blank)	→ **Shay Best**
3	Post Code **is in the lookup table** ("800" is read as 0800)	→ **That postcode's advisor**
4	Anything else (postcode not in the table, overseas)	→ **Career Advisor team: 1300 887 017**

COURSE ROUTING

Fitness by postcode, everything else to Shay

Set in `data/course-routing.csv`. Any course added to the site later and not listed goes to Shay automatically.

By postcode → local advisor

- Not sure yet
- FIT Elite™ Dual-Career PT Program
- Cert III in Fitness
- Cert IV in Fitness
- Diploma of Sport (Coaching) confirm
- Strength & Conditioning confirm
- CEC Short Courses confirm

Shay Best

- Disability Support Skill Set
- Cert IV in Training & Assessment
- TAE Upgrade (TAE40116 → TAE40122)
- First Aid / CPR
- Cert III in Travel
- International Student Pathways
- *Any new course not listed*

WHO COVERS WHAT

Postcode territories

From POSTCODE MASTER vNOV26. Six populated postcodes are missing from the sheet (e.g. 2055 North Sydney): FIT College is updating the sheet.

ADVISOR	COVERS	POSTCODES	BOOKING LINK (MEETINGS-AP1.HUBSPOT.COM/…)	STATUS
Ryan Crilly	VIC 445 · SA 343 · WA 269	1,057	ryan-crilly	Ready
Sam Russell	NSW 377 · NT 36	413	sam-russell2	Ready
Tess Szabath	QLD 293	293	tess-szabath	Ready
Dean Eggins	VIC 259	259	dean-eggins	Ready
Thomas Jordan	TAS 115 · QLD 99	214	thomas-jordan2	Ready
Paul Mountain	NSW 141	141	paul-mountain	Ready
Nicky Wood	WA 118	118	nicky-wood	Name check
Matthew Johnson	NSW 90	90	matthew-johnson	Ready
Marcus Krause	QLD 48 · ACT 30 · NSW 1	79	marcus-krause	Ready
Shay Best	Non-fitness courses, nationally	by course	shay-best	Ready

THE HUBSPOT FORMS

Two live forms (v2 embed, portal 21226391, region ap1)

Both render in the page, so the website can read and set fields. Embed codes are in SPEC.md §3.

Form IDs

Careers Consult

`2e5b35fb-e821-4f50-9f6f-db82c5eba654`

Information Pack

`cd7c4efe-24e7-4a2d-b495-fc3daf42bd76`

reCAPTCHA on in both

Website reads (routing)

`zip` : Post Code

`are_you_an_australian_citizen_or_preminent_resident_` : Yes / No

`course_enquiry` : course

`firstname` `lastname` `email` : prefill calendar

Website writes (hidden)

`course_enquiry` : preselected from source page **see SPEC §5**

`utm_widget_*` : from URL `utm_*`

`lead_source_page` , `lead_context` , `assigned_advisor` , `lead_routing` **being added**

TRACKING

Website events for GA4

Pushed to the GTM dataLayer. Each carries `lead_form` (consult / infopack), `assigned_advisor` and `lead_routing`, so book vs call vs wait can be reported per advisor.

EVENT	FIRES WHEN	CONVERSION
`lead_submitted`	The HubSpot form submitted successfully	yes
`advisor_book_opened`	Tapped "Book a time now"	
`advisor_meeting_booked`	The HubSpot calendar booking completed	yes
`advisor_call_clicked`	Tapped the advisor's phone number or "Call … now"	yes
`advisor_email_clicked`	Tapped the advisor's email	

FOR KOOK · THE HANDOVER PACK

Everything needed to build it

Documentation and data only. The build is yours: use your own patterns and the CMS's components.

FILE	WHAT IT IS
`00-START-HERE.md`	One-page overview and reading order
`SPEC.md`	The full spec: buttons, forms and field names, routing rules, screen 2 wording, tracking, acceptance checklist
`cta-inventory.csv`	All 283 links on 46 pages: current text, new text, target
`data/advisor-lookup.json`	Ready-to-use lookup: advisors (name, phone, email, booking link), 2,664 postcodes, course rules
`data/*.csv`	The same data as spreadsheets: advisors, postcodes, course routing
`assets/FIT-College-Course-Guide-2026.pdf`	The information pack, for the screen 2 download button
`FIT-College-Advisor-Routing.pdf` + deck	This deck

EDGE CASES

No dead ends

SITUATION	SCREEN 2 SHOWS
Postcode not in the table	"A Career Advisor will…", team card, 1300 887 017, no booking button
Not a citizen / PR	Shay Best (postcode may be blank)
Non-fitness course	Shay Best, "Career Advisor for [course]"
Non-fitness course (info pack)	No download button; "check your inbox for course details"
Advisor calendar empty	"No times showing? Call Tess on …" under the calendar
HubSpot submit fails	HubSpot's own error; screen 2 only after success

When territories or advisors change

FIT College sends an updated `advisor-lookup.json` (same shape). Swapping the file is the only change: nothing else in the build should depend on specific advisors or postcodes.

If advisor details (phone, email, booking link) live in the CMS instead, agree the field names with FIT College so the shape stays the same.

ACCEPTANCE

How we'll know it works

COURSE	POST CODE	CITIZEN/PR	EXPECT
Cert IV in Fitness	4558	Yes	Tess Szabath
Cert IV in Fitness	4000	Yes	Thomas Jordan
Cert III in Fitness	2150	Yes	Matthew Johnson
Not sure yet	800	Yes	Sam Russell
Not sure yet	6027	Yes	Nicky Wood
First Aid / CPR	4558	Yes	Shay Best
Cert IV in TAE	2000	No	Shay Best
Cert III in Fitness	(blank)	No	Shay Best
Cert III in Fitness	2055	Yes	Career Advisor team

Before go-live

- ☐ All 283 links: new text, right form
- ☐ Both forms embed and submit on the live domain
- ☐ Course preselected; not "FIT ELITE…" for other courses
- ☐ Screen 2: right advisor, right wording for each form
- ☐ Phone, email and booking links work on mobile
- ☐ GA4 receives the conversions
- ☐ Stanley sign-off

BEFORE GO-LIVE

Open items

- FIT College — **Tidy both HubSpot forms:** FIT Elite defaults and promo text out, button labels, new hidden fields.
- FIT College — **Course dropdown** added to both forms; field name sent to Kook.
- FIT College — Confirm Diploma of Sport, S&C and CEC courses route **by postcode**.
- FIT College — Updated postcode table (6 missing populated postcodes).
- Kook — Check the HubSpot v2 embed callbacks and meetings booking message against current docs.
