LEAD CAPTURE · HANDOVER FOR KOOK

Every enquiry, straight to the right Career Advisor

A three-step flow: postcode and course first, then the HubSpot form (with reCAPTCHA), then the matched advisor's booking calendar, so leads leave the page with a call booked.

2,664 postcodes | 10 advisors | HubSpot form + reCAPTCHA | Source: POSTCODE MASTER vNOV26 | Prototype: contact.html

THE CHANGE

From "we'll call you" to "you're booked"

Today a lead fills in a form and waits. Every minute between enquiry and conversation costs conversions.

TODAY

- Fills in a generic form
- Generic thank-you page
  No name, no next step
- Lead sits in a shared pool
  Someone works out who owns it
- Waits for a call they may miss

NEW

- Course + postcode
  "Your local Career Advisor is Tess Szabath"
- HubSpot form: name, email, mobile
  reCAPTCHA, international numbers accepted
- Tess's calendar, details prefilled
  One tap to book
- Call booked in Tess's diary, owner set in HubSpot

The lead picks the time, so the call actually connects.

HOW IT WORKS

Three steps for the lead, two systems behind it

Our code handles the matching; HubSpot handles the capture, spam protection and automation.

1

Lead clicks a CTA

Any "Chat with a Career Advisor" button. Course pages and funding-checker results pass context in the URL (`?course=`, `?from=`).

LEAD

→

2

Area + course

Postcode checked against POSTCODE MASTER, or "I live outside Australia". Advisor named on screen.

WEBSITE

→

3

HubSpot form

Name, email, mobile (country code), consent. reCAPTCHA on. Step 2 answers go in as hidden fields.

HUBSPOT

→

4

Advisor's calendar

On HubSpot's "submission success" event, the form becomes the advisor's booking calendar, prefilled.

WEBSITE

→

5

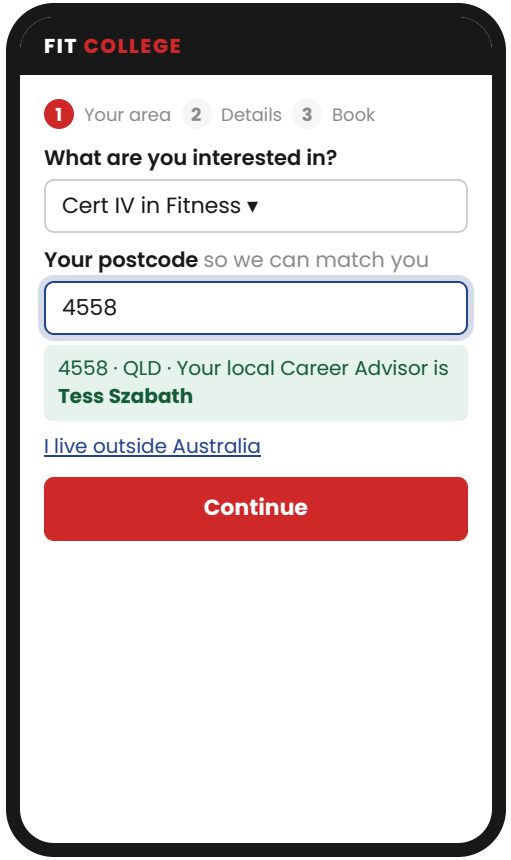

Automation

Owner set (only if blank), SMS names the advisor, info pack emailed, conversions tracked.

HUBSPOT

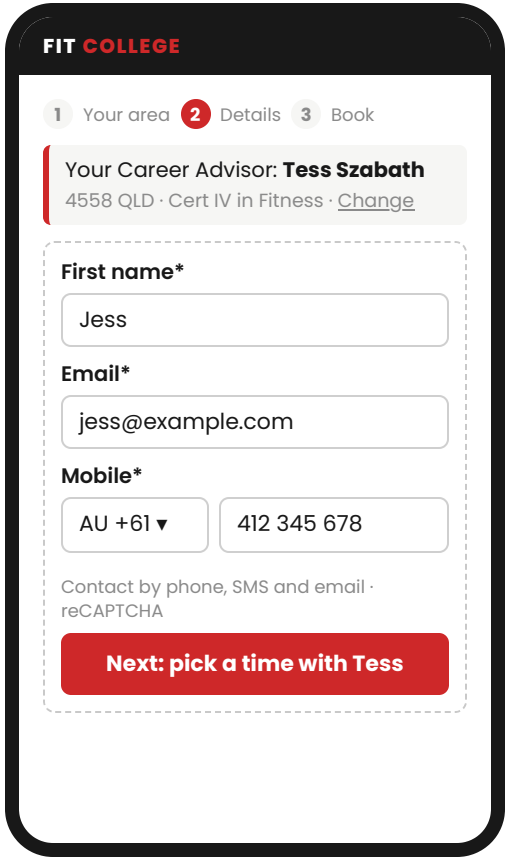

WHAT THE LEAD SEES

Area → details → booked

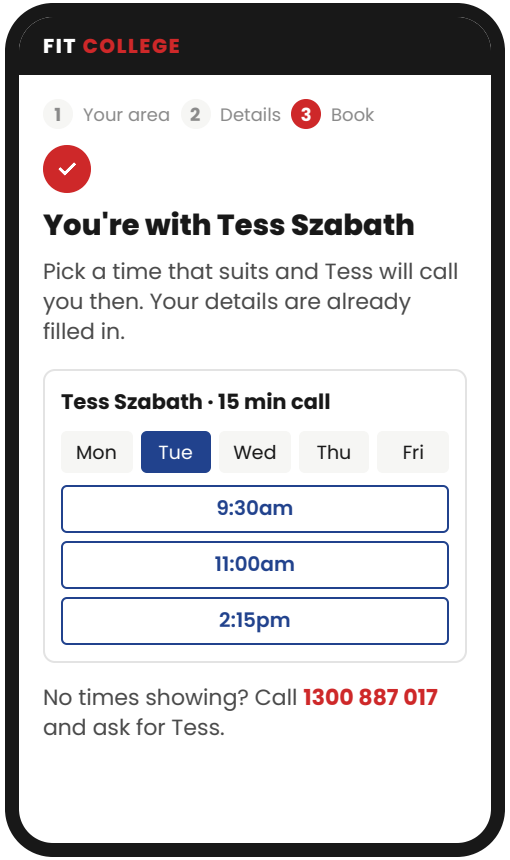

1 · Your area

Our code. Advisor named before any personal details

2 · HubSpot form

HubSpot's embed, hidden fields pre-set

3 · Book

Tess's HubSpot calendar, prefilled

THE ROUTING RULES

Checked in this order, first match wins

1	Course is a **non-fitness course** (see next slide), from anywhere, including overseas	→ **Shay Best**
2	**"I live outside Australia"** + fitness course. Country captured instead of postcode	→ **Overseas owner** confirm **(team link for now)**
3	Postcode **is in POSTCODE MASTER** ("800" is read as 0800)	→ **That postcode's advisor**
4	4-digit postcode **not in the sheet**. Soft warning: "check it, or continue"	→ **Team round-robin link**
5	Not a 4-digit postcode	→ **Can't continue: "Please enter your 4-digit postcode"**

COURSE ROUTING

Fitness by postcode, everything else to Shay

Set in `data/course-routing.csv`. Any course added to the site later and not listed goes to Shay automatically.

By postcode → local advisor

- Not sure yet
- FIT Elite™ Dual-Career PT Program
- Cert III in Fitness
- Cert IV in Fitness
- Diploma of Sport (Coaching) confirm
- Strength & Conditioning confirm
- CEC Short Courses confirm

Shay Best

- Disability Support Skill Set
- Cert IV in Training & Assessment
- TAE Upgrade (TAE40116 → TAE40122)
- First Aid / CPR
- Cert III in Travel
- International Student Pathways
- *Any new course not listed*

WHO COVERS WHAT

Postcode territories

From POSTCODE MASTER vNOV26. Six populated postcodes are missing from the sheet (e.g. 2055 North Sydney): see `data/postcode-sheet-gaps.csv`.

ADVISOR	COVERS	POSTCODES	BOOKING LINK (MEETINGS-AP1.HUBSPOT.COM/…)	STATUS
Ryan Crilly	VIC 445 · SA 343 · WA 269	1,057	ryan-crilly	Ready
Sam Russell	NSW 377 · NT 36	413	sam-russell2	Ready
Tess Szabath	QLD 293	293	tess-szabath	Ready
Dean Eggins	VIC 259	259	dean-eggins	Ready
Thomas Jordan	TAS 115 · QLD 99	214	thomas-jordan2	Ready
Paul Mountain	NSW 141	141	paul-mountain	Ready
Nicky Wood	WA 118	118	nicky-wood	Name check
Matthew Johnson	NSW 90	90	matthew-johnson	Ready
Marcus Krause	QLD 48 · ACT 30 · NSW 1	79	marcus-krause	Ready
Shay Best	Non-fitness courses, nationally	by course	shay-best	Ready

HUBSPOT · FORM BUILD SPEC

One form for both advisor and info-pack leads

Name: **Website – Lead capture (advisor routing) 2026**. One form keeps one SMS trigger and one report; `lead_form_type` tells them apart.

Visible fields

First name* · Last name*

Email*

Mobile phone* with **country code dropdown**, default AU

Consent text naming **phone, SMS and email**

Hidden fields (set by our code)

`zip` `state` `country`

`course_interest`

`assigned_advisor` new

`lead_routing` new

`lead_form_type` new · `lead_context` new

UTMs, gclid, fbclid + **promo form hidden fields** to copy

Form settings

CAPTCHA (reCAPTCHA): on

After submit: **inline thank-you**, not a redirect (a redirect would skip the calendar)

Pre-populate known values: **off** for hidden fields

Region `ap1`; note which editor (new / legacy)

Give Kook the portal ID + form ID

What happens after submit

Workflows

1. **Contact owner, only if blank.** Branch on `assigned_advisor` (11 branches). Never overwrite an existing owner: a returning lead stays with the advisor they already know.
2. **SMS speed-to-lead** names the advisor. If they've booked, send a booking confirmation, not "we'll call you shortly".
3. **Info pack**: when `lead_form_type` = infopack, email the guide for `course_interest`.
4. **Non-website leads** (Meta lead ads, imports): set owner from `hubspot-postcode-owner.csv`.

Tracking (GTM dataLayer → GA4)

`lead_step1_complete`: area + course done

`lead_submitted`: HubSpot success **conversion**

`advisor_meeting_booked`: from the HubSpot calendar's booking message **conversion**

Each event carries `assigned_advisor` + `lead_routing`, so booked rate can be reported per advisor

FOR KOOK · ASSETS

Everything needed to build it

All in the repo under `fitcollege-rebuild/`. On any page, the whole flow is one tag: `<div data-lead-flow data-form-type="advisor"></div>`

FILE	WHAT IT IS	KOOK ACTION
`js/advisor-router.js`	Renders all 3 steps, routing, HubSpot embed (new + legacy editors), tracking.	Ship sitewide. Set portal + form ID in `FIT_HUBSPOT`. Verify the `[KOOK]` HubSpot calls.
`js/advisor-data.js`	Generated: advisors, postcodes, course routing (16 KB). No staff mobiles.	Ship as-is. Never hand-edit.
`css/site.css` (lead capture blocks)	Step, banner, match message and calendar styles.	Port into the CMS stylesheet.
`contact.html`	Reference placement for both flows.	Place the two `data-lead-flow` divs.
`data/postcode-master.csv` · `advisors.csv` · `course-routing.csv`	The three source files.	Add HubSpot owner IDs to `advisors.csv`.
`data/hubspot-postcode-owner.csv`	Postcode → advisor, for HubSpot.	Route non-website leads.
`data/postcode-sheet-gaps.csv`	Postcodes missing from / wrong in the sheet.	For the sheet owner, not Kook.
`tools/build_advisor_routing.py`	Regenerates the data; stops on clashes.	Run on every sheet or course change.

EDGE CASES & UPKEEP

No dead ends, no code edits

SITUATION	BEHAVIOUR
Postcode not in sheet	Soft warning, can continue → team link; `lead_routing` = unmatched for gap reports
Overseas	Country instead of postcode; intl phone via country code
Advisor calendar empty (leave, full)	"No times showing? Call 1300 887 017" under every calendar
Wrong area or course picked	"Change" link on step 2 goes back with answers kept
Returning lead, new postcode	Owner kept (owner-if-blank rule)
Spam bots	HubSpot reCAPTCHA
JavaScript blocked	Phone number shown instead

When territories or courses change

1. Update POSTCODE MASTER (columns POSTCODE, STATE, OWNER) and/or `course-routing.csv`.
2. New advisor? Add a row to `advisors.csv`, and a branch to the owner workflow.
3. Run `python3 tools/build_advisor_routing.py "POSTCODE MASTER.xlsx"`. It prints counts and stops on any clash.
4. Deploy the regenerated `js/advisor-data.js`.

ACCEPTANCE

How we'll know it works

COURSE	AREA	EXPECT
Cert IV in Fitness	4558	Tess Szabath
Cert IV in Fitness	4000	Thomas Jordan
Cert III in Fitness	2150	Matthew Johnson
FIT Elite™	800	Sam Russell
Not sure yet	3000	Dean Eggins
Not sure yet	6027	Nicky Wood
First Aid / CPR	4558	Shay Best
Cert IV in TAE	Fiji	Shay Best
Cert III in Fitness	New Zealand	Overseas owner
Cert III in Fitness	2055	Warning → team
Any	12	Blocked: 4 digits

Before go-live

- ☐ reCAPTCHA shows and blocks a scripted submit
- ☐ Hidden fields land on the contact (check all, incl. promo-form ones)
- ☐ Calendar appears after submit; name + email prefilled
- ☐ All 10 booking links embed on the live domain
- ☐ Owner set for a new lead; NOT changed for an existing one
- ☐ SMS < 5 min, names the advisor
- ☐ GA4 receives submit + booked conversions
- ☐ Stanley sign-off

BEFORE BUILD STARTS

Open items

- **Copy** **Promotion form's hidden fields and settings** into the new form (HubSpot access needed).
- **Build** **The HubSpot form** to slide 8, then send Kook the portal ID, form ID and editor type.
- **Decide** **Who owns overseas fitness leads?** Team link until decided.
- **Confirm** Diploma of Sport, S&C and CEC courses route **by postcode**, not to Shay.
- **Fix** Add the **6 populated postcodes** missing from the sheet; check 3 typos.
- **Supply** Round-robin team link · 11 HubSpot owner IDs · confirm "NICOLA WILLIAMS" = Nicky Wood.
- **Kook** Verify the HubSpot embed/event method names in the code against HubSpot's current docs.
